Description:

(Number of courses/modules related to environment and sustainability offered in 2019 = 84 courses)

The course/module catalogs of our university have been searched using the following keywords (ex. Lingkungan, green, etc) and the courses including environmental perspective and sustainability concepts have been determined. Furthermore, the principle of green and sustainable development has been implemented in UIN Walisongo Semarang through Tridharma: Education, Research, and Community Service, which are focused on Green and Sustainability. In action, UIN Walisongo Semarang has formulated some courses and modules related to green concepts and attitudes in curriculum and subject of Study Program. Apart from that, subject of green and sustainability has also applied in process of education, ex. fieldwork activities, laboratory activities, etc. In other point, some of study programs kick off several courses/modules related about green concepts and sustainability in its curriculum as obligatory and elected courses.
