### [3] Waste (WS)

#### [3.1] Recycling Program for University Waste

Fig 1. Waste Recycling management program (Universitas Islam Negeri Walisongo Semarang, Indonesia)

#### Description:

The Walisongo Waste Bank Program is the primary program of UIN Walisongo Semarang in waste management on campus. The Walisongo Waste Bank is managed by biology lecturers and students who become members of the environmental study group. The Walisongo Waste Bank recruits new members every year, they voluntarily collect waste from each faculties in UIN Walisongo Semarang. Periodically, every three months there is a training on waste management for the general public, such as organic waste management programs through composting, and the manufacture of handicraft products from inorganic waste recycling. Today 25% of total waste has been handled well through the waste recycling program, the university has a target that 50% of the waste will fully recycle in 2020.
